

Contents

Volume 15 Number 1 1979

L. A. Guildner, H. J. Kostkowski, J. P. Evans
Appraisal of Interpolation Instruments for the
International Practical Temperature Scale from
630.74 to 1064.43° C 1

B. P. Kibble, G. J. Hunt
A Measurement of the Gyromagnetic Ratio of
the Proton in a Strong Magnetic Field 5

S. D. Ward, J. P. Compton
Intercomparison of Platinum Resistance Ther-
momters and T_{68} Calibrations 31

F. Pavese
On the IPTS-68 Temperature Value of the
Triple Point of Methane 47

P. Giacomo
News from the BIPM 51

Erratum
Quantitative Description of the Saturated Ab-
sorption Signal in Iodine Stabilized He-Ne
Lasers. A. Brillet and P. Cerez: *Metrologia* **13**,
137-139 (1977) 55

Volume 15 Number 2 1979

M. Durieux, D. N. Astrov, W. R. G. Kemp,
C. A. Swenson
The Derivation and Development of the 1976
Provisional 0.5 K to 30 K Temperature
Scale 57

The 1976 Provisional 0.5 K to 30 K Tem-
perature Scale 65

K. Grohmann, T. L. Zapf
An International Comparison of Inductive
Voltage Divider Calibration Methods Between
10 kHz and 100 kHz 69

G. N. Peggs, K. W. T. Elliott, S. Lewis
An Intercomparison Between a Primary Stan-
dard Mercury Barometer and a Gas-operated
Pressure Balance Standard 77

R. C. Kemp, W. R. G. Kemp
The α - β Transition in Nitrogen 87

K. H. Berry
NPL-75: A Low Temperature Gas Thermom-
etry Scale from 2.6 K to 27.1 K 89

Erratum
Etalons représentatifs de l'ohm et du volt.
Situation au 1^{er} janvier 1977. G. Leclerc:
Metrologia **14**, 171-174 (1978) 116

Volume 15 Number 3 1979

P. Gill, S. J. Bennett

Iodine Saturation Spectroscopy for
Multi-wavelength Stabilization of an
Argon/Krypton Ion Laser 117

S. J. Bennett, P. Cerez, J. Hamon, A. Chartier
Wavelength of a Helium-neon Laser Stabilized
by Saturated Absorption in Iodine
at 612 nm 125

A. Ono

A Design of Thermal Detectors of Radiation
with Uniform Response over the Surfaces of the
Receivers 127

T. P. Jones, J. Tapping

The Suitability of Tungsten Strip Lamps as
Secondary Standard Sources below
1064° C 135

H.-H. Klein, G. Klemp, L. Storm

Measurement of the Thermodynamic
Temperature of ${}^4\text{He}$ at Various Vapour
Pressures by a Noise Thermometer 143

R. C. Kemp, W. R. G. Kemp

The Triple Point, Boiling Point and 17 K Point
of Equilibrium Hydrogen 155

T. P. Jones, K. G. Hall

The Melting Point of Palladium and Its
Dependence on Oxygen 161

M. Ohtsuka, R. E. Bedford, C. K. Ma

A Note on the Temperature Dependent
Transmittance of Residual Films
on Glasses 165

Volume 15 Number 4 1979

W. J. Brown

Realization of the NML Scale of Total Luminous
Flux 167

H. J. Jung

Spectral Nonlinearity Characteristics of Low
Noise Silicon Detectors and their Application
to Accurate Measurements of Radiant Flux
Ratios 173

A. R. Colclough

The Temperature Dependence of Pressure-

Volume and Acoustic Second Virial Coefficients
for ${}^4\text{He}$ in the Quantum Region 183

A. Ohte, H. Iwaoka, K. Mitsui, H. Sakurai,
A. Inaba

Accurate Calibration of a New NQR Thermo-
meter (203 K to 398 K Range Calibration at
the NRML) 195

B. W. Mangum, D. D. Thornton

Determination of the Triple-Point Temperature
of Gallium 201
